9 August 2001

The inventions described in claims 1 to 10 involve an inventive step relative to documents 1 to 5 cited in the international search report.

Document 1 does not disclose a polypeptide which includes amino acid sequence numbers 237 to 531 in the amino acid sequence represented by SEQ ID NO: 2 in the present application and is an enzyme exhibiting protease activity. Moreover, a person skilled in the art would not easily conceive of the method of the present application from the disclosures in documents 1 to 5.
